

PRESS RELEASE MARCH 4th, 2019, 12.00 PM - CORTUS HAVE STARTED COMMISSIONING OF THE HÖGANÄS PLANT

Cortus Energy have started the commissioning of the Höganäs plant and invoiced SEK 1.25 million for approved installation. The customer inspection of the installation has been approved by Höganäs AB in accordance to our agreement (milestone 1/3).

Cortus has been granted a permission from KIWA (third party reviewer) to start tests with natural gas. The plant is now ready for start-up and cold testing has been initiated. That will be followed by an intensive program with hot tests of the plant leading to an additional invoicing of 1.25 million SEK. (milestone 2/3).
